

TechKool FT 2001 Water-Soluble Coolant

Soluble Oil

DESCRIPTION:

TechKool FT2001 is a water-soluble, cost-effective, bio-stable, general-purpose oil for metal removal. The emulsion created by this product leaves a light oily residue for rust protection.

TechKool FT2001 is manufactured from premium-quality virgin mineral oils and fortified with a special additive package for superior long-term, trouble-free performance and exceptional tool life.

TYPICAL PROPERTIES (NOT SPECIFICATIONS):

Appearance	Amber Oil
%Non-Volatile Solids	98
Specific Gravity @ 60oF, ASTM D-1298	0.93
Pounds Per Gallon, ASTM D-1298	7.76
pH @ 10.0% (IN Detroit H2O), FWI 3.02	9.0

FEATURES / BENEFITS:

- Metals: ferrous and non-ferrous
- Processes: general machining, grinding
- Easily emulsifiable concentrate
- Long-term emulsion stability
- Exceptional reserve alkalinity
- Superior rust and corrosion protection
- Excellent foam control

MIX / APPLICATION & USE:

Always add TechKool FT2001 concentrate to the water and stir until uniformly mixed. Use premixed coolant as makeup to maintain performance. The makeup you select should balance the water evaporation rate with the coolant carryout rate. A qualified Fortech representative will work with your team to help achieve the most beneficial initial charge and make up concentrations for your operation.
