

TechPro FT1001 Synthetic Water-Based Rust Preventive

Rust Preventive, Synthetic, Water Soluble, Wax

DESCRIPTION:

TechPro FT 1001 is a water soluble rust preventive that leaves a light, dry/soft waxy film that when added direct provides up to one year of indoor protection. TechPro FT 1001 can be used as an addition to coolant or drawing compound systems extending the corrosion protection. TechPro FT 1001 can be removed with a light alkaline cleaner.

This post is also available in: [\[redacted\]](#)

TYPICAL PROPERTIES (NOT SPECIFICATIONS):

Appearance	Clear light amber liquid
Density (lbs/gal)	8.51
Viscosity (cSt)	5

FEATURES / BENEFITS:

- Offers 12-month indoor rust protection
- Can be added to coolant or drawing compounds to extend corrosion protection
- Easily applied
- Non staining
- Can be applied to all substrates
- Dry to touch
- Easily removed with light alkaline cleaner

MIX / APPLICATION & USE:

Used direct to parts at 5 to 10% added to water.

When mixing into a coolant or drawing compound add TechPro FT 1001 between 2-5%.
